Orphans in Indonesia Receive a New School Bus

Several weeks ago we gave our friends an opportunity to contribute funds to purchase a school bus for the children of Caleb House in Indonesia. The Caleb House ministers specifically to children of Christian martyrs. The need for a vehicle was great because the children's long walk back and forth from school was extremely dangerous. Today, the boys and girls of Caleb House are very happy to have a new "school bus," a large van they use to go to school. Enough funds were also collected to provide shelter for the van and to provide for its upkeep in the year ahead. We wish to thank all those who made this project possible. More importantly, the children of Caleb House would like to thank you. We have included just one of their many thank-you letters below.
